

AWeS0Me PLUS

AWeS0Me PLUS Workshop: Innovative and Sustainable Materials for Building the Future

Objective

Exploring and promoting innovative , sustainable building materials , with a focus on reusing industrial waste . Highlighting next-generation advanced materials and their role in enhancing energy efficiency , environmental sustainability and quality of life . The event will provide an integrated overview of circular , low-impact material solutions with practical construction applications , technological innovations in advanced materials and related sustainable business models . It will foster collaboration between researchers , industry and policymakers to encourage widespread adoption of these innovations . The ultimate goals is to spark multidisciplinary dialogue and new partnerships that contribute to build a more resilient, efficient and sustainable future.

Agenda

- > 09:30 - 10:00: Registration
- > 10:00 - 11:00: Institutional greetings
- > 11:00 - 13:30: 1st Session
 - AWeS0Me PLUS Presentantion
 - Project Partner presentation
 - Technical speeches
- > 13:30 - 14:30: Light Lunch
- > 14:30 - 17:30: 2nd Session
 - Technical speeches
- > 17:30 - 18:00: Final discussion

Date and Venue

July 15th, 2025

10:00 - 18:00

@CNR Nanotec Conference Room
"Rita Levi Montalcini" - Campus Ecotekne,
Via Monteroni - 73100 Lecce
